

Powertec CAT6A Outdoor Network Cable, 10m Black

SKU: ACC-PT-00515

Description

The Powertec CAT6A Outdoor Network Cable is a robust, high-performance solution designed for reliable data transmission in challenging environments. With a length of 10 metres, this black patch cable is ideal for connecting network devices over longer distances outdoors. It supports Cat6A Ethernet standards, facilitating high-speed data transfer up to 10 Gbps, making it suitable for demanding applications such as high-definition video streaming, large data file transfers, and complex network setups.

Engineered for durability, the cable features F/UTP shielding, which includes an aluminium foil layer to minimise electromagnetic interference, ensuring consistent signal quality. The cable is particularly suited for outdoor deployment due to its UV-resistant and flame-retardant outer jacket, constructed from polyvinyl chloride, which protects the internal structure against harsh weather conditions. Its direct burial capability allows for...
