

Voltage/ Continuity Testers

AEGIS

“The classic 2-pole tester for quick & easy GPO testing”

For electricians & contractors worldwide

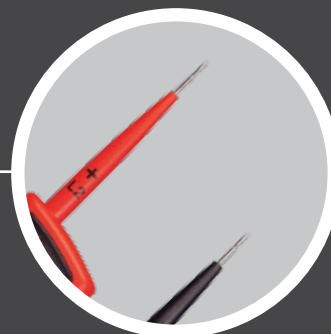

The CZ20060 is a three-in-one tester built for everyday use by electricians worldwide.

Ideal for working on site, this tester is rugged yet ergonomic, being constructed to withstand water and dust ingress, knocks, bumps, and falls all whilst fitting your hand and work practices perfectly.

With ranges between 12V - 690V and both LED and LCD display all your basic requirements are covered.

Phase rotation and continuity measurement are included to complete test functionality.

This tester has been designed with the knowledge and experience of a test equipment company that has provided tools for the electrical trades for many years.

Easy GPO testing

The CZ20060 is a tried and tested, proven tool, rugged enough to withstand everyday use. A 3-in-1 Tester: Voltage, Continuity and Phase Rotation.

01

Voltage: 12 - 690 V AC/DC
Phase Rotation: 3 phase detection

02

Inbuilt torch for working in dark locations as well as audible & visual continuity indication

Keep one handy!

03

Rugged: IP65 preventing water and dust ingress

04

IEC61010: Cat IV 600V
GS38: Fully compliant

SPECIFICATIONS

1

Measurement

Range	24 - 690 V AC/DC
Ranges (LED)	12, 24, 50, 120, 230, 400, 690
Auto Ranging	Yes
Accuracy (LCD)	±(3% +5 dig)
Voltage Detection	Automatic
Polarity Detection	Positive & Negative

2

Single Pole Voltage Indication

Operating Voltage	0 - 690 V
Frequency	50 - 400 Hz

Continuity

Resistance Indication	0 - 100 kOhm Audible & Visual
-----------------------	----------------------------------

Phase Rotation

Operating Voltage	0 - 690 V
Frequency	50 - 60 Hz

3

Features

Environmental IP65 (Water/Dust Resistant)	
Work Light / Torch	Yes
Low Battery Test	Yes
CE	Yes
IEC61010-1	Cat IV 600V
